TOP SECRET TRINE

MEMORANDUM FOR THE EXECUTIVE SECRETARY, USIB

SUBJECT: Progress Report on Improving Intelligence Activities Against [redacted]

25X1

REFERENCES: a. NSA Serial N 0247, 18 February 1965, Subject, Status Report on Review of Intelligence Activities [redacted]

25X1

b. USIB-AM-65/2, 24 June 1965

1. This progress report is submitted in response to reference b., it updates the information contained in reference a., which was provided to the Executive Secretary in accordance with the USIB charge of 18 November 1964 (USIB-AM-64/12, 20 November 1964).

2. Since reference a. was submitted, NSA has undertaken, continued or completed the following actions [redacted]

25X1

a. The NSA [redacted] Expansion Program [redacted] which was about fifty percent complete at the time reference a. was submitted, now has been accomplished. As noted at paragraph 2.a. in reference a., the expansion program tele-scanned the programmed FY 65/66 build-up of resources [redacted] mainland into FY-65, and identified compensatory reductions in areas of lower priority. [redacted]

USIB-S-29.22/20. 12 July 1965, LIMITED DISTRIBUTION, and was discussed at the USIB meeting of 5 August 1965, see USIB-M-397. 5 August 1965. Item 21

25X1

c. NSA is continuing the evaluation [redacted]

25X1

[redacted] with a view to achieving necessary cover of essential targets; This will lead to our submission to the DoD of a Program Change Proposal (PCP), but the action has not reached a point at this juncture which will allow us to predict with certainty precisely what our recommendations finally will be; however, it is nearly certain that considerable increases will be requested in those resources [redacted]

25X1

25X1

Results of these tests

will influence contingency planning [redacted]

[redacted] but also will be of value in PCP or like considerations. The collection phase of this test should be completed in October, but the results and impact thereof will probably not be fully evaluated for some time.

25X1

e. Diagnostic studies [redacted]

25X1

[redacted] are continuing, and progress is being made. Efforts to obtain additional personnel with appropriate analytic skills also are continuing, in hopes that the studies' rate of progress can be increased. Improvements in intercept
